Projects

As a software engineering student, I've embarked on exciting projects, showcasing my skills in diverse areas. I've built machine learning models, contributed to web applications, worked on image processing, and SQE projects. Additionally, I've explored the realm of big data analytics using popular libraries like pandas, numpy, and scikit-learn.

ABOUT

As a highly motivated software engineer with a passion for technology, I have honed my skills in frontend and backend development using Python. I am confident in my ability to deliver high-quality results. I take pride in my ability to work independently, and collaborate effectively with team members.I am excited to bring my expertise, as well as my passion for technology, to a dynamic and challenging work environment where I can continue to grow and make a positive impact.

WORK EXPERIENCE

Freelance Software Engineer (Upwork) - 2020-Present
As a software engineer on Upwork, I have successfully completed various projects for clients from different industries. My expertise lies in full-stack development. I am experienced in Agile methodologies.

Graphic Designer (Freelance) - 2020-Present
In addition to software engineering, I have a passion for graphic design. I have created logos, websites, and marketing materials for clients in various industries. My designs are not only visually appealing, but also effectively communicate my clients' message and branding to their target audience.

EDUCATION

FSc (Pre-Engineering) - Post Graduate College of Science, FSD (2018-20)
This institute known for its exceptional educational standards and commitment to producing highly qualified individuals. During this time, I developed a strong foundation, which has been instrumental in my studies and future career goals.

Bachelor's in Software Engineering - UAF, FSD (2020-Expected 24)
I am currently pursuing a Bachelor's degree in Software Engineering. I have a strong foundation in programming languages such as Python. I am continuously seeking to expand my knowledge and skills through coursework and hands-on projects.
